

## Regulatory Information Sheet

Version 1.0  
Date: 01 January 2026

### Product: Terluran®

#### Absence Declaration

The following substances are not used as additives or ingredients in the manufacture of the above mentioned product(s):

- 1,3-benzenediol (Resorcinol, CAS No. 108-46-3)
- 2-(2H-benzotriazol-2-yl)-4,6-di-tert-pentylphenol (UV-328, CAS No. 25973-55-1)
- Chlorinated paraffins
- Chlorobenzene (CAS No. 108-90-7)
- Cholecalciferol (CAS No. 67-97-0)
- Decabromdiphenylethane (DBDPE) including isomers (CAS No. 84852-53-9, 135821-03-3, 135821-74-8)
- Diisooctyl phthalate (DIOP, CAS No. 27554-26-3)
- Dechlorane Plus (DP, CAS No. 13560-89-9)
- Lanolin (CAS No. 8006-54-0)
- Linear alkylbenzene (LABS, CAS No. 67774-74-7)
- Mancozeb (CAS No. 8018-01-07)
- Per- and polyfluoroalkyl substances (PFAS)
- Perchlorates
- Polycyclic Aromatic Hydrocarbons (PAHs), but for colored materials the carbon black used for the coloration of the product may contain PAHs
- Semicarbazide (CAS No. 57-56-7)
- Talc (CAS No. 14807-96-6)

#### Absence Declaration - Glycol ethers

The following substances are not used as additives or ingredients in the manufacture of the above mentioned product(s):

- (2-Methoxymethylethoxy)propanol (DPGME, CAS No. 34590-94-8)
- [2-(2-Methoxymethylethoxy)methylethoxy]propanol (CAS No. 25498-49-1)
- 1-Butoxypropan-2-ol (CAS No. 5131-66-8)
- 1-Methoxypropan-2-ol (CAS No. 107-98-2)
- 1-Phenoxypropan-2-ol (CAS No. 770-35-4)
- 2-Ethoxy-1-methylethyl acetate (CAS No. 54839-24-6)
- 2-Ethoxyethanol (EGEE, CAS No. 110-80-5)
- 2-Ethoxyethylacetat (EGEEA, CAS No. 111-15-9)
- 2-Methoxy-1-methylethyl acetate (PGMEA, CAS No. 108-65-6)

*The information above refers to the state of the laws at the date of issue. This confirmation expires after 12 months or in case of regulatory changes. Please ask for a new confirmation if needed. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed. The statement provided is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.*

- 2-Methoxyethanol (EGME, CAS No. 109-86-4)
- 2-Methoxypropanol (CAS No. 1589-47-5)

#### **Absence Declaration – Mercapto-Mix**

The following substances are not used as additives or ingredients in the manufacture of the above mentioned product(s):

- N-Cyclohexyl-2-benzothiazolesulfenamide (CAS No. 95-33-0)
- Benzothiazole disulfide (CAS No. 120-78-5)
- 2-Mercaptobenzothiazole (CAS No. 149-30-4)

#### **Absence Declaration – Thiuram-Mix**

The following substances are not used as additives or ingredients in the manufacture of the above mentioned product(s):

- Dicyclopentamethylenethiuram disulfide (CAS No. 94-37-1)
- Tetraethylthiuram disulfide (CAS No. 97-77-8)
- Tetramethylthiuram sulfide (CAS No. 97-74-5)
- Thiram (CAS No. 137-26-8)

#### **Allergens**

In the manufacture of the above mentioned product(s) no substances listed in Annex II of Regulation (EU) No 1169/2011, lastly amended by Commission Delegated Regulation (EU) 2015/2283, are used as additives or ingredients.

#### **Biocidal products and Regulation (EU) No 528/2012**

We wish to inform you that to the best of our knowledge no biocides are present above 0.0001% in the above mentioned product(s).

#### **BSE/TSE Status**

Please be advised that we have obtained assurances from our suppliers that all raw materials currently used in the manufacture of the above INEOS Styrolution product(s) are either not manufactured from animal derived substances, or, if animal-derived, originate from Category 3 materials or raw materials, which undergo rigorous production process as described in Annex XIII, Chapter XI of Commission Regulation (EU) No 142/2011, implementing Regulation (EC) No 1069/2009 and consequently, fulfilling the requirements of EMA/410/01 Rev.3 (2011/C 73/01), Chapter 6.4. This process involves using high temperatures (>200°C), under pressure and for more than 20 minutes. Tallow derivatives manufactured according to these conditions are unlikely to present any TSE risk. In conclusion, such tallow derivatives are also exempt from requirements from Commission Regulation (EU) No 722/2012 as defined in Article 1(4) therein (see also Annex I 3 in the regulation).

#### **Conflict minerals**

Please be informed that "Conflict minerals" as defined by the Securities and Exchange Commission (SEC), i.e. cassiterite, columbite-tantalite, gold, wolframite, and their derivatives, have not been intentionally added as ingredients in the manufacture of the above mentioned product(s) and, to the best of our knowledge, are not known to be present in the final product(s).

#### **Deforestation-free Products (EUDR; Regulation (EU) 2023/1115)**

Please be informed that the products we supply to you are not within the scope of Regulation (EU) 2023/1115 on deforestation and forest degradation.

Further information incl. a FAQ:

[https://www.ble.de/EN/Topics/Forest-Timber/Deforestation-free-products/Supply-chains\\_node.html](https://www.ble.de/EN/Topics/Forest-Timber/Deforestation-free-products/Supply-chains_node.html)

*The information above refers to the state of the laws at the date of issue. This confirmation expires after 12 months or in case of regulatory changes. Please ask for a new confirmation if needed. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed. The statement provided is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.*

### End-of-Life Vehicles Directive

Based on the information available to us from our raw material suppliers, the current products referred to above do not contain as intentional additives or ingredients, the four heavy metals lead, cadmium, chromium (VI) and mercury and their compounds, as referenced in the subject EU Directive 2000/53/EC of the European Parliament and of the Council and its amendments (up to and including Commission Delegated Directive (EU) 2023/544).

Therefore the requirements of EU Directive 2000/53/EC (End-of-Life Vehicles Directive) and its amendments are fulfilled.

### Endocrine disruptor list - List I: Substances identified as endocrine disruptors at EU level

Endocrine disruptor list I (latest update 2025/06, <https://edlists.org/the-ed-lists/list-i-substances-identified-as-endocrine-disruptors-by-the-eu>) contains substances that have undergone an evaluation of endocrine disrupting properties, as regulated in the EU in REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals; (EC) 1907/2006), BPR (Biocidal Products Regulation; (EU) 528/2012, and (EU) 2017/2100), PPPR (Plant Protection Products Regulation; (EC) 1107/2009, and (EU) 2018/605), and which are identified as endocrine disruptors.

We wish to inform you that in the manufacture of the above mentioned product(s) no substances mentioned in "List I: Substances identified as endocrine disruptors at EU level" (updated in 2025/06) are deliberately used as additives or ingredients.

### EU-Directive 2011/65/EU on Restriction of Hazardous Substances in electrical and electronic equipment ("RoHS Directive")

Please be advised that we have reviewed the RoHS directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011, in particular Annex II thereof, restricting certain substances to be below tolerable concentrations. This Annex II of the RoHS Directive was lastly amended by Commission Delegated Directive (EU) 2015/863. Based on the information available to us from our raw material suppliers, the current products referred to above do not contain as intentional additives any of the below referenced materials as referenced in the subject EU directive. To the best of our knowledge, none of these materials are generated during production.

Therefore, the requirements regarding the absence of substances listed in Annex II of EU-Directive 2011/65/EU are fulfilled.

- Cadmium and its compounds
- Hexavalent chromium compounds
- Mercury and its compounds
- Lead and its compounds
- Polybrominated diphenyl ethers (PBDEs)
- Polybrominated biphenyls (PBBs)
- Bis(2-ethylhexyl) phthalate (DEHP)
- Butyl benzyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

Therefore we can confirm that above mentioned grade(s) as listed above will not contain these substances above the threshold limits of 0.01% by weight for Cadmium and 0.1% by weight for Lead, Mercury, Chromium-VI, Polybrominated Biphenyls (PBB), Polybrominated Diphenylethers (PBDE), Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP).

### EU-Directive 2012/19/EU on Waste Electrical and Electronic Equipment ("WEEE Directive")

The EU-Directive 2012/19/EU, amended last by Directive (EU) 2024/884 of the European Parliament and of the Council of 13 March 2024, defines the recovery of waste electrical and electronic equipment.

*The information above refers to the state of the laws at the date of issue. This confirmation expires after 12 months or in case of regulatory changes. Please ask for a new confirmation if needed. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed. The statement provided is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.*

Therefore, we as raw material supplier cannot provide a statement of compliance, because this is dependent on the final article. We have examined the WEEE directive and as far as we can determine, the only requirement that would apply to INEOS Styrolution is to disclose the presence of brominated flame retardants (see Annex VII of the directive). We can state that INEOS Styrolution does not deliberately add any brominated flame retardants to the above mentioned grade(s) nor are they present to the best of our knowledge, in any of the raw materials used to manufacture the above mentioned grade(s).

### European Commission Regulation 1895/2005 - Absence of Epoxy Compounds

Please be advised that the above mentioned product(s) is/are not manufactured with 2,2-bis(4-hydroxyphenyl)propane bis(2,3-epoxypropyl) ether ("BADGE") and its derivatives (including BADGE.H<sub>2</sub>O, BADGE.HCl, BADGE.2HCl, BADGE.H<sub>2</sub>O.HCl), bis(hydroxyphenyl)methane bis(2,3-epoxypropyl) ethers ("BFDGE") and its derivatives including (BFDGE.H<sub>2</sub>O, BFDGE.HCl, BFDGE.2HCl, BFDGE.H<sub>2</sub>O.HCl) and novolac glycidyl ethers("NOGE"). Nor are these chemicals present, to the best of our knowledge, in any of the raw materials used to manufacture this/these polymer(s). Therefore Commission Regulation 1895/2005 is not applicable to INEOS Styrolution polymer grades.

### Extended Minerals Reporting Template (EMRT)

We hereby inform you that the Responsible Minerals Initiative (RMI) has released Version 2.0 of the Extended Minerals Reporting Template (EMRT) in April 2025. This updated version now explicitly covers: copper, natural graphite, lithium, nickel, mica, and cobalt.

It is possible that above mentioned product(s) may contain one or more of the minerals in scope. In the event that any such minerals are present, they have been sourced exclusively from smelters and refiners that are approved, validated, and listed as compliant in accordance with recognized industry standards and responsible sourcing requirements.

### FALCPA

In the manufacture of the above mentioned product(s) any of the nine major food allergens defined in the Food Allergen Labeling and Consumer Protection Act of 2004 (FALCPA) (Title II of Public Law 108-282) and, 201(qq) of the FD&C Act (21 U.S.C. 321(qq)) are not used as additives or ingredients.

### Flame retardants

In the manufacture of the above mentioned product(s) flame retardants based on bromine, chlorine or phosphor are not used as additives or ingredients.

### GB 26572-2025 Requirements for restricted use of hazardous substances in electrical and electronic Products ("China RoHS Directive")

Please be advised that we have reviewed the China RoHS directive as lastly published by authorities from the People's Republic of China GB 26575-2025 of 5 August 2025. Based on the information available to us from our raw material suppliers, the above mentioned product(s) do(es) not contain as intentional additives any of the below referenced materials as referenced in the subject CN directive. To the best of our knowledge, none of these materials are generated during production.

Therefore, the requirements regarding the absence of substances listed in GB 26572-2025 are fulfilled.

- Cadmium and its compounds
- Hexavalent chromium compounds
- Mercury and its compounds
- Lead and its compounds
- Polybrominated diphenyl ethers (PBDEs)
- Polybrominated biphenyls (PBBs)
- Bis(2-ethylhexyl) phthalate (DEHP)
- Butyl benzyl phthalate (BBP)

*The information above refers to the state of the laws at the date of issue. This confirmation expires after 12 months or in case of regulatory changes. Please ask for a new confirmation if needed. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed. The statement provided is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.*

- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

Therefore we can confirm that above mentioned grade(s) as listed above will not contain these substances above the threshold limits of 0.01% by weight for Cadmium and 0.1% by weight for Lead, Mercury, Chromium-VI, Polybrominated Biphenyls (PBB), Polybrominated Diphenylethers (PBDE), Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP).

### Halogens

The content of halogens in the above mentioned product(s) is below the limit which is stated in DIN VDE 0472, part 815 (Fluorine: 0.1%; Chlorine, Bromine, Iodine: 0.2%).

### Human Samples/ Blood Derivatives

Please be informed that in the manufacture of the above mentioned product(s) human samples or their blood derivatives are not used as additives or ingredients.

### Microplastic

We confirm that the above mentioned product(s) complies/comply with the requirements of the Regulation (EC) No. 2023/2055, amending Annex XVII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) as regards synthetic polymer microparticles (entry 78).

Our products are in scope of the definition of synthetic polymer microparticles as provided in Regulation (EC) No. 2023/2055. Our products are intended for the use at industrial sites and therefore encounter no restrictions to the placing on the market. We have implemented the required labelling obligations, which will apply from October 2025, and will report the quantities placed on the market retroactively from 2025.

### Nanomaterials

Above mentioned product(s) is/are not a nanomaterial according to the definitions of the EU (COM(2012) 572 final).

In the case of colored products, some of our pigment suppliers indicate that they cannot rule out that their pigments contain nanoparticles. However, nanoparticles, if present, will be firmly embedded in the polymer matrix, thus not presenting any hazards (e.g. for inhalation).

### Ozone Depleting Substances

We have reviewed Regulation (EU) 2024/590 of 7 February 2024 on substances that deplete the ozone layer, and repealing Regulation (EC) No 1005/2009. Please be informed that all Ozone Depleting Substances listed in Annex I of the above mentioned regulation are not intentionally used as additives or ingredients.

### Packaging and Packaging Waste Regulation (EU) 2025/40 (PPWR)

We have reviewed Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste; amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904, and repealing Directive 94/62/EC. In reference to Article 5 "Requirements for substances in packaging", the above listed resin does not contain the following substances above threshold limits based on our formulation, manufacturing process and information from our raw material suppliers.

- The sum of lead, cadmium, chromium-VI and mercury does not exceed the maximum value of 100 mg/kg as required also by the CONEG (Coalition of North Eastern Governors) for the January 1, 1994

*The information above refers to the state of the laws at the date of issue. This confirmation expires after 12 months or in case of regulatory changes. Please ask for a new confirmation if needed. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed. The statement provided is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.*

- Per- and polyfluorinated alkyl substances (PFAS) (25 ppb for any PFAS, 250 ppb for the sum of PFASs and 50 ppm for PFASs including polymeric PFAS)

### Persistent, bioaccumulative and toxic (PBT) chemicals

On January 6, 2021, the U. S. Environmental Protection Agency (EPA) issued final rules (40 CFR §751) for the five PBT chemicals listed below under TSCA Section 6(h). We wish to inform you that based on the information on the raw materials used to produce the above mentioned product/s, INEOS Styrolution does not deliberately add the substances below and therefore, would not expect their concentrations to exceed the applicable regulatory limits:

- 2,4,6-tris(tert-butyl)phenol (TTBP, CAS No. 732-26-3, §751.409, regulatory limit of 0.3% w/w)
- Decabromodiphenyl ether (DecaBDE, CAS No. 1163-19-5, §751.405)
- Hexachlorobutadiene (HCBD, CAS No. 87-68-3, §751.413)
- Pentachlorothiophenol (PCTP, CAS No. 133-49-3, §751.411, regulatory limit of 1% w/w)
- Phenol, isopropylated phosphate (3:1) (PIP (3:1), CAS No. 68937-41-7, §751.407)

### Plant derived substances

Please note that we are unable to confirm that above mentioned product(s) is free of plant derived substances. One or more of the additives used in its/their production can be made from raw materials using either an animal or plant source.

### POP Regulation

Regulation (EU) 2019/1021 of the European Parliament and of the Council of 20 June 2019 on persistent organic pollutants has repealed and replaced Regulation (EC) No 850/2004.

In the manufacture of the above product/s below mentioned substances, prohibited from use according to Annex I of Regulation (EU) 2019/1021, as amended by Regulation (EU) 2025/1482, are not used as additives or ingredients:

- Aldrin (CAS No. 309-00-2)
- Alkanes, C10-13, chloro (short-chain chlorinated paraffins – SCCPs, CAS No. 85535-84-8)
- Bis(pentabromophenyl) ether (DecaBDE, CAS No. 1163-19-5)
- Chlordane, pur (CAS No. 57-74-9)
- Chlordecone (CAS No. 143-50-0)
- Clofenotane (DDT, CAS No. 50-29-3)
- Dechlorane Plus and its syn-isomer and anti-isomer (CAS No. 13560-89-9, 135821-03-3, 135821-74-8)
- Dicofof (CAS No. 115-32-2) Dieldrin (CAS No. 60-57-1)
- Dieldrin (CAS No. 60-57-1)
- Dodecachloropentacyclo[5.2.1.02,6.03,9.05,8]decane (Mirex, CAS No. 2385-85-5)
- Endosulfan and its isomers (CAS No. 115-29-7 and others)
- Endrin (CAS No. 72-20-8)
- Heptabromodiphenyl ether (Group) (CAS No. 68928-80-3)
- Heptachlor (CAS No. 76-44-8)
- Hexabromo-1,1'-biphenyl (CAS No. 36355-01-8)
- Hexabromocyclododecane and all major diastereoisomers identified (CAS No. 25637-99-4, 3194-55-6, 134237-50-6, 134237-51-7, 134237-52-8)
- Hexabromodiphenyl ether (Group) (CAS No. 36483-60-0 and others)
- Hexachlorobenzene (CAS No. 118-74-1)
- Hexachlorobuta-1,3-diene (CAS No. 87-68-3)

*The information above refers to the state of the laws at the date of issue. This confirmation expires after 12 months or in case of regulatory changes. Please ask for a new confirmation if needed. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed. The statement provided is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.*

- Hexachlorocyclohexanes (HCH, CAS No. 608-73-1 and others) including Lindane (γ-HCH, CAS No. 58-89-9)
- Methoxychlor (CAS No. 72-43-5, 30667-99-3, 76733-77-2, 255065-25-9, 255065-26-0, 59424-81-6, 1348358-72-4 and others)
- Pentabromodiphenyl ether (Group) (CAS No. 32534-81-9 and others)
- Pentachlorobenzene (CAS No. 608-93-5)
- Pentachlorophenol and its salts and esters (CAS No. 87-86-5 and others)
- Perfluorohexane sulfonic acid (PFHxS), its salts and PFHxS-related compounds (CAS No. 355-46-4 and others)
- Perfluorooctane sulfonic acid (PFOS), its salts and PFOS-related compounds C<sub>8</sub>F<sub>17</sub>SO<sub>2</sub>X (X = OH, Metal salt (O-M<sup>+</sup>), halide, amide, and other related compounds including polymers)
- Perfluorooctanoic acid (PFOA), its salts and PFOA-related compounds (CAS No. 335-67-1 and others)
- Perfluorohexane sulfonic acid (PFHxS), its salts and PFHxS-related compounds (CAS No. 355-46-4 and others)
- Polychlorinated biphenyls (PCB, Cas No. 1336-36-3 and others)
- Polychlorinated naphthalenes (Cas No. 70776-03-3 and others)
- Tetrabromodiphenyl ether (Group) (CAS No. 40088-47-9 and others)
- Toxaphene (CAS No. 8001-35-2)
- 2-(2H-benzotriazol2-yl)-4,6-di-tert-pentylphenol (UV-328, CAS No. 25973-55-1)

Therefore, the requirements regarding the prohibition of and exemptions or other specifications (e.g., thresholds) of substances listed in Annex I of Regulation (EU) 2019/1021 are fulfilled.

As a resin supplier, INEOS Styrolution Europe GmbH cannot be held responsible for any processing which may occur to produce finished articles, compounds, packaging materials or its/their component(s).

### Precious metals

In the manufacture of the above mentioned product(s), precious metals (gold, silver, platinum, palladium) are not intentionally used as additives or ingredients.

### Radioactivity

INEOS Styrolution has no reason to believe there should be any concerns regarding radioactivity associated with the raw materials we use to make our products, nor with the products we produce.

### Rare-earth metals (REEs)

In the manufacture of the above mentioned product(s), rare-earth metals, i.e. cerium (Ce), dysprosium (Dy), erbium (Er), europium (Eu), gadolinium (Gd), holmium (Ho), lanthanum (La), lutetium (Lu), neodymium (Nd), praseodymium (Pr), promethium (Pm), samarium (Sm), scandium (Sc), terbium (Tb), thulium (Tm), ytterbium (Yb), and yttrium (Y) are not intentionally used as additives or ingredients.

### REACH Declaration

The above mentioned product line is compliant with the Regulation EC No. 1907/2006 (REACH) concerning registration obligations.

The components we manufacture or import ourselves requiring registrations have been registered by our own or are registered and thus covered by appointed EU Only Representatives (OR) by our non-EU raw material supplier.

### Recycled material

INEOS Styrolution above mentioned product(s) do(es) not contain recycled material from external sources.

*The information above refers to the state of the laws at the date of issue. This confirmation expires after 12 months or in case of regulatory changes. Please ask for a new confirmation if needed. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed. The statement provided is exclusively for our customers and respective competent authorities. It is not intended for publication either in printed or electronic form (e.g. via Internet) by others. Thus, neither partial nor full publication is allowed without written permission.*

### **Regulation (EU) No. 2024/573 on fluorinated greenhouse gases, amending Directive (EU) 2019/1937 and repealing Regulation (EU) No 517/2014**

We wish to inform you that in the production of above mentioned product(s) no fluorinated substances, as listed in Regulation (EU) No. 2024/573, Annex I-III, are used as additives or ingredients. Neither are such substances used during production, nor can they be incidentally formed during the production process, as no fluorine source is present.

### **VOC content**

Swiss legislation on "tax on VOC" content "Ordonnance sur la taxe d'incitation sur les composés organiques volatils (OCOV)" 814.018 is requiring a fee for volatile organic compounds (VOCs) being present in chemicals, mixtures and articles. According to section 4 art 8 of this legislation, mixtures / preparations and articles which contain less than 3 % of volatiles are excluded from paying this fee.

We herewith state that VOC content in the above mentioned product(s) is orders of magnitude below the above mentioned limit of 3 %, if present at all. This means that the material can be imported into Switzerland without the need for VOC tax.

### **For notice:**

Many substances are ubiquitous. To the best of our knowledge, the product supplied to you does not contain above mentioned substances in concentrations above 0.01 %. The observance of all these substances is not part of our ongoing production control. In view of the many factors that may affect processing and application of our products, this information does not relieve the processor from carrying out own investigations and tests, neither does this information imply any guarantee for certain properties nor the suitability of the product for a specific purpose. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed.

Please note that this declaration is only valid for prime products manufactured within the European Union.

INEOS Styrolution Europe GmbH
